

Biotransenergetics (BTE)

BTE is a new revolutionary methodology that bring together post-modernity and tradition, is an integral discipline that integrate shamanism and meditation, spirituality and Body Mind practices, state of consciousness and emotional mastership, mindfulness and ceremonies, healing practices and archetypal constellations.

BTE is a deeply innovative Transpersonal Psychotherapy that, thanks to a participatory vision, offers tools for an increasing dialogue between individual and environment, the boundaries of the personal history and the qualities of the Transpersonal Self.

BTE is a result of over thirty thousand hours of clinical work, both individual and in group, has been presented in over fifty International Conferences all over the world (Italy, Brazil, USA, Russia, France, Switzerland, Spain, Bulgaria, Rumania, Moldova, Latvia) and in sixteen published books.

Who?

To medical doctors, psychologist, psychotherapist, healing practitioners, teachers, managers, artists, good will women and men.

What?

BTE may lead us, with awareness and compassion, through the shadow of our personal history, through death and rebirth, never ending awakes.
